In the manuscript “Characteristics and clinical outcomes of adolescents infected by SARS-CoV-2: a systematic review”, DOI: 10.1590/1984-0462/2024/42/2022241, published in the Rev Paul Pediatr. 2024;42:e2022241, on page 3:

Where it reads:

Table 1. Articles published between January 2020 and April 2022.

Reference	Country	Study design	Description of the sample Number of participants (n)/ age group (years old)	Methodological quality ¹⁴ and level of evidence ¹²
Oliveira et al. ²⁷	Brazil	Cohort	n=6.725/12–19	17 points/level 3
Clemente et al. ¹⁹	Spain	Cohort	n=77/less than 18	16 points/level 3
Drouin et al. ²⁰	Canada	Cohort	n=36/13–17	18 points/level 3
Gomes et al. ²¹	Brazil	Cohort	n=1320/12–18	16 points/level 3
Pinto Júnior et al. ²²	Brazil	Cross-sectional	n=854/10–19	17 points/level 4
Graff et al. ²³	USA	Cohort	n=220/11–19	17 points/level 3
Macias-Parra et al. ²⁴	Mexico	Cross-sectional	n=34/12–18	16 points/level 4
Oliveira et al. ²⁵	Brazil	Cohort	n=3589/12–19	21 points/level 3
Parcha et al. ²⁶	USA	Cohort	n=5573/12–17	18 points/level 3
Prata-Barbosa et al. ¹⁵	Brazil	Cohort	n=14/12–17	16 points/level 3
DeBiasi et al. ¹⁶	USA	Cohort	n=73/10–19	16 points/level 3

It should read:

Table 1. Articles published between January 2020 and April 2022.
